

EXPERIENCE

Software Developer

From 2022 - Present | Pixieset

Developed plugins and platform tools.

Collaborated with project designers to ensure successful project implementation.

Maintained regular interaction with the support and production teams, actively gathering insights on products, features, and bug-related information.

Demonstrated my technical proficiency by developing blocks for the last three themes, showcasing my ability to deliver high-quality solutions within a dynamic environment.

Front-end Developer

From 2021 - Present | Squaremuse

Supported Squaremuse users by addressing bug fixes and handling custom requests.

Coordinated with support, product, and marketing teams.

Developed four themes for Squaremuse platform.

Intern Developer

From 2021 - 2022 | Squaremuse

Assisted the Senior Developer in developing and optimising products using CSS and JS.

Worked with the Squarespace platform to improve our products.

Learned systems and processes for integration into the development process.

UI/Web and Graphic Design

From 2020 to 2021 | STIONE

I dedicated myself to assuming key responsibilities in the corresponding area, delivering exceptional results for the company, improving productivity, and excelling in web design, including creating landing pages and social media assets.
